

Connect Employees with Meaningful Environmental Action

Proven Results: Teva Case Study

- 270+ employees joined the live talk
- 300+ visited Teva's HNP landing page
- 13,000+ sq ft of native plants added to corporate campuses

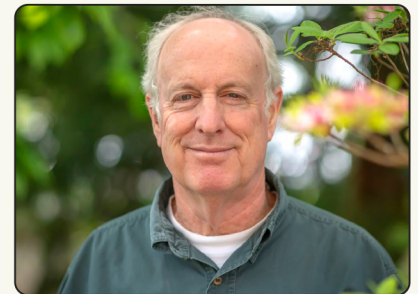

How It Works

Kick Off with a Talk

Launch your company's biodiversity journey with a keynote or virtual event by **Doug Tallamy**

— NYT bestselling author and acclaimed scientist

- A hopeful, science-backed message: "Bring Nature Home"
- Designed to spark action where people live and work

Launch a Custom Company Page

We'll build a branded team landing page featuring:

- Step-by-step native planting guidance
- Exclusive discounts on native plants
- One-click access to the HNP Biodiversity Map

Plant native – on your campus, in your community, and at home!

Let's bring it to your company next!
